

Abstract

The present invention relates to a solid adjuvant comprising

a) one or more surfactants of the formula (I),

where

Ar is aryl which is substituted by at least two (C₁-C₃₀)alkyl radicals,

R¹ is H or (C₁-C₆)alkyl,

R² is H or (C₁-C₆)alkyl,

10 R³ is H, an unsubstituted or substituted (C₁-C₃₀) hydrocarbon radical, a sulfonate radical, a phosphonate radical or an acyl radical, and

y is an integer from 1 to 100, and

b) one or more fatty acid esters. The adjuvant is particularly suitable in the field of crop protection.
